

Dear Parents,

Thank you for your interest in Hope Christian Academy.

Hope Christian Academy is a private Christian school serving children in grades K5-12. Our beautiful facility is located in Plant City, home of the Strawberry Festival. HCA is fully accredited through National Private Schools Accreditation Alliance and we are a member of the Association of Christian Schools International.

We offer a positive, loving, Christian environment where young lives are encouraged and helped to do their best academically, mature socially and emotionally, and to grow in their spiritual walk with God so that they will be equipped to reach their full potential. We offer daily Bible classes, weekly Chapel, **individualized academic plans**, qualified and experienced instructors, and a great curriculum. This type of setting is perfect not only for the average and gifted students, but for students who struggle in their academics as well.

Class sizes do not exceed 15 students. Upon applying for enrollment, students are tested for proper placement to ensure academic **success at every level**. A multi-sensory approach is taken for diversity in the learning process. We not only offer excellent educational curriculum, we offer fun approaches for learning to stimulate the creativity and involvement of each child. All classrooms have computers and our fully equipped computer lab is networked and internet accessible. Add faith to all of that, and you have what I believe to be one of the best educational programs available.

Financial aid is available through various scholarships. Call our office for qualification information if you may need this service.

If you have any other questions, or would like to schedule a tour of our campus, please do not hesitate to contact me.

Sincerely Yours,

Michelle Hagel

Director
